

TERMIS-EU BPC

2017 Business Plan Competition

APPLY NOW!

TERMIS-EU holds the only Europe-based start-up competition specific to tissue engineering and regenerative medicine fields. Whether you're looking for a first taste of the business side of TERM or want to accelerate your startup through experienced mentorship and substantial cash prizes, the TERMIS-EU BPC is for you! Participants are offered a unique range of benefits, including:

ACCESSIBILITY

The competition is designed to be accessible to entrepreneurial researchers whether students or post-doctorates, from teams with mature business plans to individuals at the idea stage curious about commercialisation.

NETWORKING

Teams will be invited to join an invaluable network of innovative researchers, investors, senior healthcare managers, and regulatory, legal and IP consultants, offering the chance for expert guidance for your development strategy.

MENTORSHIP

All semi-finalist teams receive the benefit of **two** experienced mentors. Through a combination of business strategy consultancy and technical guidance your business plan will quickly improve. Mentors may remain involved after the competition.

TRAINING PROGRAMME

Our Pre-Accelerator Programme is a series of **free** webinars designed to familiarise teams and individuals with the complex issues a high-quality business plan must address. Featuring experienced high-quality speakers, all sessions are made available online.

Final round held at TERMIS-EU 2017 Conference (Davos, Switzerland) with substantial cash prizes for top three teams!

"Entering the TERMIS business plan competition was a fascinating learning experience which offered great insight into starting a company in the TERM field. The professional exposure and chance to establish relationships with experienced opinion leaders was what really inspired me, and no doubt boosted my career hugely."

– Oliver Ball, TERMIS-EU 2016 BPC finalist

Submission deadline 17th February
